Saratoga County FSA News

MERRY CHRISTMAS AND A HAPPY NEW YEAR TO ALL FROM FSA

DCP & ACRE Signup Continues

Enrollment for the 2010 Direct and Counter-Cyclical Program (DCP) & the Average Crop Revenue Election Program (ACRE) will continue through June 1, 2010. Producers can make use of the eDCP automated website to sign up, or producers can visit any USDA Service Center to complete their 2010 DCP contract. As in the past, we will schedule office visits with past participants to review the programs and consider the options. If you don't get an appointment letter from us, call us so we can review the program at a mutually acceptable time. USDA computes DCP Program payments using base acres and payment yields established for each farm. Eligible producers receive direct payments at rates established by statute regardless of market prices. For 2010, eligible producers may request to receive advance direct payments based on 22 percent of the direct payment. USDA will issue advance direct payments beginning Dec. 1, 2009. Counter-cyclical payment rates vary depending on market prices. Counter-cyclical payments are issued only when the effective price for a commodity is below its target price. The effective price is the higher of the national average market price received during the 12-month marketing year for each covered commodity and the national average loan rate for a marketing assistance loan for the covered commodity. An ACRE payment is issued when both the state and the farm have incurred a revenue loss. The payment is based on 83.3 percent (85 percent in 2012) of the farm's planted acres times the difference between the State ACRE guarantee and the state revenue times the ratio of the farm's yield divided by the state expected yield. The total number of planted acres for which a producer may receive ACRE payments may not exceed the total base on the farm. In exchange for participating in ACRE, in addition to not receiving counter-cyclical payments, a farm's direct payment is reduced by 20 percent, and marketing assistance loan rates are reduced by 30 percent. The decision to enroll in the ACRE Program is irrevocable. The owner of the farm and all producers on the farm must agree to enroll in ACRE. Once enrolled, the farm shall be enrolled for that initial crop year and will remain in ACRE through the 2012 crop year. The June 1, 2010, deadline is mandatory for all participants. USDA will not accept any late-filed applications.

SURE

The 2008 Farm Bill amended the Trade Act of 1974 to create the Supplemental Revenue assistance program (SURE).

The SURE program provides benefits for farm revenue losses due to natural disaster that incurred in the crop years 2008 through September 30, 2011. To be eligible for SURE payments, a producer is required to obtain crop insurance on all crops in all counties or, if crop insurance is not available, to participate in the Non-Insured Assistance Program (NAP) except for grazed acreage. However, crop insurance or NAP coverage is no longer required for crops that are not of economic significance or those where the administrative fee required to buy NAP coverage exceeds 10 percent of the value of the coverage.

Eligible farmers and ranchers who meet the definition of Socially Disadvantaged, Limited Resource, or Beginning Farmer or Rancher are exempt from the risk management purchase requirement.

The following are the conditions that trigger SURE payments:

- at least one crop of economic significance must suffer a 10% production loss due to an eligible disaster condition
- crop of economic significance is a crop that has contributed or would have contributed at least 5% or more of the total expected revenue from all crops on the farm
- producers in counties declared disaster counties by the Secretary of Agriculture, or in contiguous counties, or those who show proof of an individual loss of at least 50% are eligible to receive SURE payments for crop producer or crop quality losses. Losses are measured with consideration to the whole-farm revenue, which includes crop insurance indemnities and commodity program payments, so that producers are not paid more than once for the same loss. At this time no 2008 SURE application sign-up date has been announced. A date for sign up will be announced soon.

Selected Farm Loan Interest Rates for December 2009

Farm Operating Loans — Direct	2.875%
Farm Ownership Loans — Direct	4.625 %
Farm Ownership Loans — Direct Down Payment, Beginning Farmer	1.50 %
Emergency Loans	3.75%

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD). To file a complaint of discrimination write USDA, Director, Office of Civil Rights, 1400 Independence Avenue, SW, Washington, DC 20250-9410 or call (202) 795-3272 (voice) or (202) 720-6382. USDA is an equal opportunity provider and employer.

Federal Crop Insurance News and Alerts

Insured Corn and Soybean producers who due to wet weather conditions were **unable to harvest** their crop should **contact** their crop insurance agent **no later than December 25th** to file a Notice of Loss. In some instances the insurance period ended December 10th for these crops. You may be able to extend coverage if you call NOW. The Dairy Gross Margin enrollment dates are **December 18th and 19th, 2009**. The program protects when actual income over feed costs is less than expected. Contact your agent or go to <http://www3rma.usda.gov/apps/agents/> to get a list of agents.

LDP Deadline on Unshorn Lamb Pelts

Eligible producers have **until Jan. 29, 2010**, to apply for Loan Deficiency Payments (LDP) for unshorn pelts produced during the 2009 crop year.

Eligible producers must have beneficial interest in the pelts, owned the lamb for at least 30 calendar days before the date of slaughter and sell the unshorn lamb for immediate slaughter. Producers must also comply with wetland conservation and highly erodible land conservation provisions on all lands they operate or have interest in.

To qualify for payment, pelts must have been produced by an eligible producer from live unshorn lambs of domestic origin in the United States.

Commodity Loans

Commodity loans, also referred to as Marketing Assistance Loans, are available to producers who share in the risk of producing the crop. To be eligible, you must maintain beneficial interest in the crop through the time of application. Beneficial interest means retaining the ability to make decisions about the commodity; responsibility for loss or damage to the commodity; and title to the commodity. Once beneficial interest in a commodity is lost, the commodity is ineligible for loan — even if you regain beneficial interest. The quality of the commodity in farm storage must be maintained throughout the term of the loan.

BCAP

FSA is currently accepting applications from biomass facilities interested in participating in the Biomass Crop Assistance Program (BCAP). BCAP provides financial assistance to producers or entities that deliver eligible biomass material to designated biomass conversion facilities for use as heat, power, bio-based products or bio-fuels. Initial assistance will be for the Collection, Harvest, Storage and Transportation (CHST) costs associated with the delivery of eligible materials. Once an agreement is signed between FSA and a facility allowing funding through the program to become available, the facilities can begin accepting materials.

Producers who sell these materials can apply for matching payments under the collection, harvest, storage and transportation (CHST) component of BCAP.

A biomass material producer is eligible to receive payments for two years. The purpose of the matching payments is to assist biomass producers with the CHST cost of delivering biomass to a qualified biomass conversion facility. Once a facility becomes qualified, eligible material owners or producers who deliver biomass to that facility may be eligible to receive CHST payments.

Eligible material owners or producers, who market eligible material to a qualified biomass conversion facility, may apply for the matching CHST payment at their FSA county office. An application must be submitted before the eligible material is sold and delivered to a qualified biomass conversion facility. After the product is delivered, a producer must provide FSA with documentation of product quantity, quality and payment rate. County offices will validate payment requests with information in the county office and information provided under the terms of MOUs with the qualified biomass conversion facilities.

For more information about programs in your area, contact your local FSA office or log onto <http://fsa.usda.gov> and click New York under State Offices
