

FSA At Work Across New York - FY 2010

The USDA Farm Service Agency delivered over \$83.4 million in federal program payments to New York farmers during FY 2010. New York agriculture benefits greatly from the tireless efforts of our dedicated employees and locally elected County Committees.

State Executive Director Jim Barber

Commodity Program Payments: \$43 million

New York producers benefited from commodity and price support program payments during FY 2010.

\$27,954,786 - Direct and Counter-cyclical Program (DCP)- Direct payments provide income support to producers of eligible commodities based on production history (acreage and yields) and do not depend on the current production choices. Counter-cyclical payments are made when the effective price for eligible commodities is less than the target price.

\$14,090,545 - Milk Income Loss Contract (MILC)- Provides compensation to dairy producers when domestic milk prices fall below a specified level.

\$964,876 - Average Crop Revenue Election Program (ACRE) - provides producers a revenue based payment as an alternative to commodity price based counter-cyclical payments.

\$56,895 - The Loan Deficiency Payments (LDPs) benefited wool and mohair producers in 2010, who experienced a continuing decline in market prices. LDPs are available to producers when market prices are low, as long as the producer maintains beneficial interest in the commodity.

Conservation: \$12,679,367

FSA continues to make strides toward conserving and improving soil, water, and wildlife resources in New York. The Conservation Reserve Program is the USDA's single largest, most effective environmental program. Conservation investments for New York in FY 2010 include:

\$4,745,976 - Conservation Reserve Program (CRP)- provides financial incentives, cost-share and rental payments to producers who convert highly erodible cropland or environmentally sensitive acreage to long-term vegetative cover.

\$7,770,193 - Biomass Crop Assistance Program (BCAP) - assists land owners and operators with the collection, harvest, storage and transportation of eligible material used in a biomass conversion facility.

\$148,815 - Emergency Conservation Program (ECP)- provides emergency funding for farmers and ranchers to rehabilitate farmland damaged by natural disasters and to carry out emergency water conservation measures during periods of severe drought.

\$14,383 - Grassland Reserve Program (GRP) - is a voluntary program designed to protect grasslands from conversion to cropland. Producer rental payments provide an incentive to maintain pastures for grazing.

Disaster Assistance: \$27,666,450

From drought to flood, freeze to tornadoes and hurricanes - no production agriculture operation is immune to the effects of natural disasters. New York FSA was financially responsive to the state's producers.

\$23,802,100 - Dairy Economic Loss Assistance Program (DELAP) - provides a one-time payment to assist dairy producers that suffered low milk prices and high production costs.

\$1,731,429 - Non-Insured Crop Disaster Assistance Program (NAP) - The NAP program provides financial assistance to producers of noninsurable crops when low yields, loss of inventory, or prevented planting occurs due to natural disasters.

\$1,403,871 - Supplemental Revenue Assistance Program (SURE) - provides payments to producers when farm revenue losses are due to natural disasters.

\$359,629 - Emergency Assistance Program - provides emergency relief to producers of livestock, honeybees, and farm-raised fish. This compensation covers losses resulting from natural disasters like blizzards and fires.

\$369,421 - Livestock Indemnity Program (LIP) - provided benefits to livestock producers for animal deaths in excess of normal mortality caused by adverse weather that occurred from Jan. 1, 2008 to Oct. 1, 2011.

Farm Loans: \$119.2 million

FSA obligated \$119,232,000 in direct and guaranteed operating loans, farm ownership loans, emergency loans, youth loans, socially disadvantaged loans, and loans to beginning farmers throughout the state of New York.

\$86,121,000 - Guaranteed Loans - FSA guarantees loans made by conventional agricultural lenders. In FY 2010, FSA in New York guaranteed 330 farm ownership and farm operating loans.

\$33,111,000 - Direct Loans - FSA provides assistance to those unable to obtain guaranteed loans. In FY 2010, FSA in New York funded 347 farm ownership and farm operating loans.

\$15,076,000 - Beginning Farmer Loans - In FY 2010, 160 beginning farmer loans were made in New York.

\$4,906,000 - Socially Disadvantaged Loans - In FY 2010, 45 loans for socially disadvantaged producers were made in New York.

\$15,070 - Youth Loan - In FY 2010, New York funded 5 youth loans.
